

## ASCP - ACCREDITED SUPPLY CHAIN PROFESSIONAL

TITLE	ASCP - ACCREDITED SUPPLY CHAIN PROFESSIONAL
INSTRUCTOR	Certified American Academy Instructor
DESCRIPTIONS	<p>A supply chain is comprised of all the parties involved in fulfilling a customer request. The integrated management of the network is a critical determinant of success in today's competitive environment. Companies like Nokia, Toyota, Dell, Procter &amp; Gamble, and a relatively new comer like Tata Motors are proof that excellence in supply chain management is a must for financial strength and industry leadership.</p> <p>The increasing competition around the globe, supply chain management is both a challenge and an opportunity for companies. Hence a strong understanding of supply chain management concepts and the ability to recommend improvements should be in the toolbox of all managers. The objective of this course is to introduce you to the key concepts and techniques that will allow you to analyze, manage and improve supply chain processes for different industries and markets.</p> <p>At completion of this course, the participants will have the skills to assess supply chain performance, manage the operations effectively and efficiently, and make recommendations to increase supply chain competitiveness.</p> <p>The AAPM® certification process, administered by GAFM Board, identifies to the public that those individuals who have been authorized to use the AAPM® certification marks in the globe have met rigorous professional standards and have agreed to adhere to the principles of integrity, objectivity, competence, fairness, confidentiality, professionalism and diligence when dealing with</p>

	clients.
